Is your school and/or school system required to prepare and/or periodically update ... 

_____ school improvement or action plans?

Would you like to have a tool with the following features?

_____ easy to use                        _____ easy to update                        _____ structured yet flexible

_____ inexpensive                       _____ easy to monitor                       _____ professional looking reports

_____ capable of producing target gains for student achievement _____ applicable to a school district, a school, or a teacher

_____ capable of performing the mathematics calculations for generating possible target gains in student achievement

Multiply the number of affirmative responses times 10 to determine your score. Interpret your need for SIP2KAC based on the following scale:

0-10: Would be helpful; 20-40: Would make your life easier;

50-70: Would really be beneficial; 80-100 Don't know how you managed without it.

Let SIP2KAC help you set your possible target goals for student achievement.
SIP2KAC is a relational database application designed to facilitate and encourage development, and regular maintenance, of effective school improvement plans. It is designed to assist the user in processing and analyzing data to be used in preparing the improvement plans. SIP2KAC is adaptable to individuals with a wide range of computer and/or mathematical computational skills. The program is designed for ease of use without sacrificing key elements of data analysis and effective planning.
